

Post-Doctoral Associate Position at CNS-ASU

The Center for Nanotechnology in Society at Arizona State University (CNS-ASU) seeks to fill one or two POST-DOCTORAL ASSOCIATE positions in the societal implications of nano-scale science and engineering (NSE) starting Fall 2008.

The post-doctoral fellows are expected to collaborate with CNS-ASU researchers on the Center's on-going research and outreach activities, perform significant independent research, and contribute to educational programs. The fellowship is available for one year, renewable for a second year.

Required qualifications for the post-doctoral fellowship include: a doctorate in a related area; demonstrated interest at the intersection of scientific and technological advance and societal implications in general and NSE in particular; and evidence of high achievement in both research and teaching. Desired qualifications include interest and/or experience in: technology assessment, equity issues, human nano-biotechnologies, and qualitative assessment and evaluation of learning.

Deadline is Monday, April 28, 2008; if not filled, every Monday until search closed.

To apply, submit a detailed letter of application stating qualifications, experience, research plans, and teaching interests; a complete curriculum vitae; and the names and contact information (mailing address, telephone number, and email address) of three references to Regina Sanborn, Program Manager, Center for Nanotechnology in Society, Arizona State University, P.O. Box 874401, Tempe AZ 85287-4401. Submissions may be made by email (preferred) to rsanborn@asu.edu.

CNS-ASU (<http://cns.asu.edu>) is a federally-funded research, education, and outreach center dedicated to understanding the legal, ethical, and other societal implications of nanotechnology. CNS-ASU works intimately with the Consortium for Science, Policy, and Outcomes (www.cspo.org), which offers an innovative, interdisciplinary environment for developing and testing research and teaching ideas related to the governance and conduct of science and technology in the public interest. CNS-ASU also collaborates closely with The Biodesign Institute (www.biodesign.org) at ASU and with a network of public universities across the U.S. A background check is required for employment.
